## Personal statement

---

A recent mathematics graduate from Newcastle university. Looking to further advance the skills I've acquired from my degree by securing a role as a data analyst or similar. During my degree I've worked extensively on analysing data for assignments and group projects. I've worked with programming languages such as R and MATLAB, which I believe has given me a foundational level in programming.

## Education

---

**2016-2019**

**BSc (Hons) Mathematics, Newcastle University**

**Relevant modules included:** Problem Solving I & II, Optimisation with Constraints, Computing for Mathematics and Statistics, Group Project, Introduction to Statistical Inference, Applied Probability, Linear Models, Stochastic Financial Modelling, Generalized Linear Models, Experimental Design, Survival Analysis.

- Gained strong verbal communication skills from presentations in seminars and presenting in a group project to a large audience.

- Worked in a group project using MS Excel and latex, to analyze the 2016/2017 Premier league stats and prepare well-presented reports.

**2015-2016**

**International Foundation year Program  
Math and Economics, Warwick university**

- **Modules:** Mathematics (78%), Economics (66%), Statistics and Decision Maths (73%)  
Finance (65%), English and Study Skills (79%)

**2011-2015**

**British school of Bahrain, Manama**

- **A levels:** Mathematics, Further mathematics, Physics (B,C,C)

- **9 GCSEs:** Grades A-C

## Key Skills

---

- R and MATLAB
- SQL
- Latex
- Proficiency in all areas of Microsoft Office, including Access, Excel, Word and PowerPoint
- Excellent communication skills, both written and verbal developed through reports and presentations
- Advanced problem solving and numerical skills.
- Beginner level proficiency with Python and C#

## Hobbies & Interests

---

I enjoy occasionally spending some free time learning programming for video game development. Other hobbies would be reading, football, following most tech related news.
